

# You Served Us, Let Us Serve You

Indiana Tech gives you the opportunity to earn a degree from an accredited university when, where, and how it's convenient for you. Choose one of our Indiana locations, online classes, or independent study to learn the skills and knowledge you need to succeed in a format that fits your lifestyle as a member of our nation's armed forces.

**Indiana Tech  
specializes  
in programs  
for students  
who strive  
to be leaders...**

## Experience + education = success

Combine your military experience with an Indiana Tech education to prepare yourself for wherever life takes you.

Contact us to learn more about Indiana Tech's degree programs. An admissions representative can guide you through the application process and answer your questions about accreditation, transfer credits, financial aid and more.

College of Professional Studies

**SERVING  
THOSE  
WHO  
SERVE OUR  
COUNTRY**

## Leadership

Your military experience has already helped you develop skills in areas such as:

- › Decision making
- › Critical thinking
- › Communication
- › Team building

Adding an Indiana Tech education to your military experience will help round out your qualifications and prepare you for the next phase of your life.

Indiana Tech offers three leadership degrees:

- › Bachelor of Science in Organizational Leadership
- › Master of Science in Organizational Leadership
- › Ph.D. in Global Leadership

## Additional Programs

In addition to the full scope of leadership degrees, Indiana Tech also offers degrees in:

- › Accounting
- › Business Administration
- › Criminal Justice
- › General Studies

## Indiana locations

Indiana Tech's main campus is in Fort Wayne, Ind., home of the 122nd Fighter Wing (Blacksnakes). The university's College of Professional Studies has additional locations in Elkhart, Fishers, Greenwood, Hammond, Huntington, Indianapolis, Kendallville, Merrillville, Mishawaka, Plainfield, and Warsaw. These locations are ideal for students who live nearby and can attend one night a week for five or six weeks per class.

## Online classes

Online classes are offered in an accelerated, interactive format that allows you to progress quickly while working from anywhere. Most classes span 5 weeks for undergraduate courses and 6 weeks for graduate courses. Although the classes do have specific start and end dates, you're not required to be logged in at particular dates or times. Just access the material when it's convenient for you each week. You'll have plenty of opportunities to interact with faculty and classmates online.

## Independent study

Independent Study courses are truly independent. Classes begin on the 15th of each month, and enrollment is open year-round. You work at your own pace, corresponding with an instructor either via online communication or traditional mail correspondence. These classes are an excellent option if you have the self-discipline to work independently and ensure that you complete all coursework within the six months allowed.

## Accreditation

Indiana Tech is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools, while the mechanical and electrical engineering programs are accredited by the Accreditation Board for Engineering and Technology (ABET). For more information, visit [www.ncahigherlearningcommission.org](http://www.ncahigherlearningcommission.org).

The university is approved and officially recognized by the U.S. Office of Education and the U.S. State Department and is approved by the State Approval Agency for the enrollment of veterans and eligible persons.

Additionally, the university is a member of the Council for Adult and Experiential Learning (CAEL) and adheres to its policies and practices.

All this means Indiana Tech is a qualified institution for Veterans Affairs education benefits. It also means future employers will know you have received a quality education.

# Military Designations

## Yellow Ribbon status

Indiana Tech holds several advantages for students who qualify for the Yellow Ribbon program:

- › An unlimited number of students may enjoy Yellow Ribbon benefits from Indiana Tech. Many other universities limit those benefits to a small number of students.
- › Indiana Tech will contribute up to \$10,000 per year toward your tuition costs. This unusually high

contribution means you could earn your degree with no out-of-pocket costs.

- › Indiana Tech includes the cost of books in its tuition rate and ships the books to you. You do not need to worry about the potentially high costs of textbooks or the inconvenience of shopping for them.

## Servicemembers Opportunity Consortium

Being designated as a member of the Servicemembers Opportunity Consortium (SOC) shows that Indiana Tech is committed to:

- › Ensuring that service members and their families share in the postsecondary educational opportunities available to other citizens.
- › Establishing programs, policies, and procedures in areas such as admissions, credit transfer, recognition of non-traditional learning experiences, and scheduling to provide enhanced access of service members and their families to degree programs.

## GI Jobs Military Friendly School

GI Jobs has been identifying the top colleges and universities for service members for almost 10 years, and Indiana Tech is proud to be among the top 15% of schools nationwide.

# Military Scholarships

Military members **and their spouses** are eligible for a special scholarship from Indiana Tech. This scholarship supplements Armed Forces Tuition Assistance, reducing and possibly even eliminating your out-of-pocket costs for a college degree.

Our team of admissions representatives and financial aid experts will work with you to make sure that you get the maximum tuition benefits available to you based on federal programs for servicemembers and veterans. Our military scholarship is added to those benefits to ensure that you can afford to earn a college degree.

With all that Indiana Tech has to offer, you can't afford not to take advantage of our programs.
