# THE EXTREMIST

An American sensibility that re-imagines cult classics, the Marc Ecko Cut & Sew sun collection is an expression of artistic creativity for men who know authenticity counts. Modern, contemporary designs with subtle details inspired by craftsmanship, industrial references and pop culture, add to the unique styling of these suns. Each style is a juxtaposition of on trend retro and modern designs, flavored with a rugged sportiness and military toughness. The color palette of black, brown, and green olive is splashed with pewter and blue carbon, enhancing the "covert" vibe of this sexy, stealth collection.

# SUNS

shouldn't be "one size fits all."

To address the various fitting needs of your hard-to-fit patients, we offer our Specialty Fit Collections.

These collections offer much more than sized-up, sized down models, or "extra small, extra large;" each is specifically designed to properly fit particular facial features of both men and women. So whether they have wider bridges, narrow PDs, or larger eye sizes, your customers can feel more confident in the sun.

*petite fit*

## *Petite Fit*

Our Petite Fit frames feature smaller-sized versions of some of our most popular brands, in styles your customers love. Available for BCBGMAXAZRIA, Ellen Tracy, Jessica McClintock, and the ClearVision Collection, each Petite Fit sun offers:

- Narrower bridges and smaller eye sizes to match petite faces and narrower PDs
- Multiple temple lengths for a precise, comfortable fit
- Durable spring hinges in smaller sizes

## *XL FIT*

Created for larger men who want a perfect fit without compromising style, the XLFIT™ collection is available for Marc Ecko Cut & Sew, Cole Haan, IZOD, and the ClearVision Collection.

XLFIT includes design features like:

- Longer temple lengths
- Wider bridges and larger eye sizes to match fuller faces and wider PDs
- Extra strength spring hinges for added durability
- Extended end pieces for greater comfort

The ClearVision Specialty Collection gives your customers the brands they want, in the fits they need. It's just one more way we dedicate ourselves to offering the best solutions for your dispensary, and every one of your customers.
