FOUNDING AND LIFE MEMBERS

OREF was sustained during the early years of its existence by two groups, both farsighted and generous donors: Founding Members, who between the years of 1955 and 1961 either contributed or bequeathed \$1,000; and Life Members, who exercised 5-year pledges at the same level of support between 1961 and 1965. We are honored to recognize these early supporters by publishing the names of all living Founding and Life Members annually.

OREF MENTOR CAMPAIGNS

OREF Mentor Campaigns honor individuals who have made a significant impact in training future generations of orthopaedists. The mentor's fellows and residents are asked to contribute to an OREF research grant in a topic area chosen by the mentor. Every dollar raised for a mentor campaign is used to support research grants that reflect the mentor's stated research priority.
