# The Best Way to Enhance Student Employability

## WHY CHOOSE ABSOLUTE INTERNSHIP?

### 1 Absolute 24/7 Support

Unlike other providers, Absolute Internship does not outsource any aspect of the program. The Absolute Internship program includes pre-departure support, a health & safety orientation and emergency assistance on-site, as well as post-program support for your students.

Please note that our comprehensive risk management plan is available upon request.

### 2 Guaranteed Internship Placement

All students will be matched with internship placements in their industry of choice. We don't match your students with their second or back-up option. This is achieved through a personalized placement process where we offer additional support such as assistance with CV building, job interview preparation and coaching.

### 3 High-End Accommodation

We offer central, high-end housing where all Absolute Interns live. We house the students together for health and safety purposes, to foster the creation of a community and to provide 24/7 on-site support through our Program Coordinators. For this reason, our interns consistently rate housing as one of the highlights of our program.

### 4 Visa Expertise

We pride ourselves on being visa experts and have developed special relationships with various consulates and embassies around the world, in order to constantly stay on top of visa regulations and restrictions. We have an in-house compliance team who support your students with the various visa processes and guide each student through the steps of obtaining the necessary permissions to work abroad, making your job as an institutional partner easier.

### 5 Customized Service

Our service is personalized, and we are able to tailor the program to meet each university's needs. We keep universities updated constantly and respond within 24 hours to all communication.

## OUR 3 DIFFERENT PROGRAM TYPES:

### Summer Programs

Our award-winning summer programs allow students to intern in 11 different locations for 4, 6, 8 or 12 weeks.

We recommend this service as it is all-inclusive: we provide program support, internship placements, housing, cultural activities, visa support, a local transportation pass, company visits and career development workshops, as well as on-site Program Coordinators living in the same housing as the Absolute Interns and available to assist them 24/7.

### Internship Placement Only

Another option for your students is the Internship Placement Only service. This option is offered year-round in all of our locations, for as long as the corresponding visa permits. In this case we provide internship placements and regular check-ins with the student and employer over the course of the internship. We would be able to provide visa information as well, however each intern would be responsible for processing their own visa, finding housing, and organizing the details of their time abroad.

### Customized Programs

Finally, we offer the possibility of creating a customized program. Depending on your needs, we can create a program with specific dates, inclusions, destinations, industries, activities, etc., provided that there would be a guarantee of at least 10 participants.

Absolute Internship is able to offer exclusive prices on our services to all of our partner institutions.

**“Absolute Internship has been a pleasure to work with. They are fast, efficient, and well equipped. We look forward to working with Absolute Internship in the years to come.”**
