

GIVE US 30 MINUTES!

AND WE'LL CHANGE THE WAY YOU MANAGE SQL SERVER

Download a free evaluation of any of Idera's powerful tools at www.idera.com

Idera provides powerful and easy-to-use software tools to simplify your Microsoft SQL Server management. Our award-winning solutions address real-world challenges including tools for backup and recovery, performance monitoring, security, compliance and administration. From managing a single SQL Server to enterprise deployments with hundreds of servers, our software products deploy in minutes to help database administrators save time and focus on bringing more value to their business.

PERFORMANCE & AVAILABILITY

SQL diagnostic manager™ | MONITOR, DIAGNOSE & ANALYZE PERFORMANCE FROM YOUR DESK OR MOBILE DEVICE

Now with SQL mobile manager. A powerful performance monitoring and diagnostics solution that proactively alerts administrators to health, performance or availability problems within their SQL Server environment—all from a central console, at your desk or from a Blackberry™ or Windows mobile device.

SQL defrag manager™ | AUTOMATE & OPTIMIZE DATABASE DEFRAGMENTATION

A one-of-a-kind solution that automates the time-consuming process of finding and fixing database index fragmentation issues across multiple SQL Servers.

SECURITY & COMPLIANCE

SQL compliance manager™ | CAPTURE, AUDIT & ALERT ON SQL SERVER ACTIVITY

A comprehensive auditing solution that tells you who did what, when and how on your SQL Servers. SQL compliance manager helps you ensure compliance with regulatory and data security requirements by providing customizable, low-impact auditing, alerting and reporting on virtually all activity across multiple SQL servers.

SQL secure™ | IDENTIFY & MITIGATE SQL SERVER SECURITY RISKS

Helps to identify holes in SQL Server security and ensure compliance with increasing audit requirements. SQLsecure collects and analyzes permissions data from SQL Server and Active Directory as well as the file system and registry to show who has access to what database objects and how that access is granted.

BACKUP & RECOVERY

SQL safe™ | ACCELERATE, COMPRESS & ENCRYPT DATABASE BACKUPS

A high-performance backup and recovery solution for Microsoft SQL Server. SQLsafe saves money by reducing database backup time by up to 50% over native backups and reducing backup disk space requirements by up to 95%.
