Exclusive for Optometrists

60-Day Dry Eye Omega Benefits[®] Nutritional Program

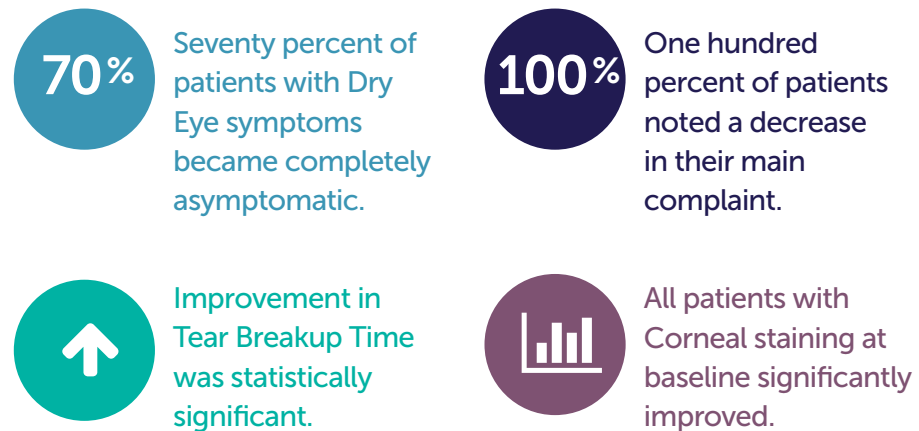

Why is our 60-day bottle right for your patients?

There is good news for the 70 million North Americans who experience occasional dry eye symptoms. Our omega-3 product is a nutritional supplement and offers a natural way to help your patients achieve long-term symptomatic relief. In a recent study, seventy percent of patients using Dry Eye Omega Benefits® that had occasional symptoms of dry eye were asymptomatic after 60 days.*

Based on this research, PRN now offers a 60-day bottle of Dry Eye Omega Benefits®. **Available exclusively through Optometrists.**

Dr. S. Gregory Smith, MD, an attending surgeon at the prestigious Wills Eye Institute, proved that positive outcomes for occasional dry eye symptoms were shown after 60 days when patients used the recommended 4 soft-gel-a-day dose. His study revealed that in patients with occasional symptoms of dry eye:

Exclusive for Optometrists

The 240-count (60 Day) Dry Eye Omega Benefits® bottle is available wholesale exclusively to optometrists and is not available at retail.

You can be confident recommending Dry Eye Omega Benefits

Thousands of top ophthalmologists and optometrists recommend PRN.

*Dr. Eric Donnenfeld, M.D.
Clinical Professor of Ophthalmology, NYU
President of ASCRS 2013*

“I’ve been recommending omega-3s for ten years, but I only found out in the past two years that not all omega-3s are created equal. I use one from PRN Physician Recommended Nutriceuticals not only because it’s less expensive (per recommended serving) but also because it offers much higher absorption.”

PRN Dry Eye Omega Benefits® is custom-formulated based on clinical research from top physicians. Our product is produced in a purified triglyceride form, which research has shown to provide superior absorption over typical over-the-counter omega-3s which are produced in the ethyl ester form.* Our product offers an effective, safe, and natural way to address occasional dry eye symptoms systemically rather than topically.
