A CITIZEN
OF THE
WORLD"**

— SOCRATES

STUDY ABROAD

"Studying at ACG provided me with the opportunity to create relationships with people from all over the world and the confidence to work with a diversity of peoples and cultures."
EGBERT SAYERS, NORTSHORE COMMUNITY COLLEGE

Don't just study abroad.

Study in the place where modern education, democracy, and Western civilization began. Discover one of Europe's largest study abroad programs at The American College of Greece (ACG) in Athens. Yes, that Athens.

You're not in America anymore, but you're right where you need to be. To walk in the footsteps of ancient philosophers. To learn from professors who have an international perspective. To travel to historic and vibrant European cities. Features of the American College of Greece include:

- Short- and long-term study abroad students from dozens of countries as well as degree-seeking students from 58 countries
- Accredited by the New England Commission on Higher Education (the same organization that accredits Yale, Harvard, and other top universities in the US), which makes it easy for the credits you earn at ACG to transfer back to your school
- Apartment-style housing with full kitchen and shared laundry, fitness, and lounge areas just a short walk from campus
- On-campus facilities and resources such as a simulated trading room, fully online library, computer labs, writing center, career services, and academic advising
- Intercollegiate athletics such as basketball, futsal, rugby, soccer, swimming, tennis, volleyball, and water polo; a variety of intramural sports are popular as well

3,400
average undergraduate student enrollment

58
number of countries represented by degree-seeking students

10/30
minutes to the mountains and beach, respectively, via public transportation

"I believe my experiences with refugees and having the world as my classroom have prepared me well for the entrepreneurial profession."

Marquette University Zac Wierschem, upon winning the 2017 Institute of International Education Generation Study Abroad video challenge after his semester at ACG.

"Teaching a class that includes a sizable number of students from the U.S. and other countries is a wonderful experience; I get to see young people rapidly being transformed into citizens of the world, able to navigate a new country and a new culture."

— DANIEL MCCORMAC
PROFESSOR OF JOURNALISM AND COMMUNICATIONS

CITY PROXIMITY: Located in the Athens metropolitan area in the suburb of Aghia Paraskevi

DOLLARS AND SENSE: Your financial aid package may transfer as well, and tuition includes excursions to nearby islands and archeological sites
