Buying components separately and creating your own backup and recovery solutions can take time, resources and expense.

Introducing Plug-n-Protect…

An all-in-one backup and recovery appliance for fast and economical deployment of a complete data protection solution.

Software + **Hardware** + **Storage** + **Support** = **Plug-n-Protect**

Software	Hardware	Storage	Support
•Director	• 1U rack - mount server	• Nexsan storage	• Support and Maintenance for HW and SW
• Central Control	• Windows operating system	• Seagate drives	
• Choice of Agents			• Single point of contact for support, training and professional services
• Choice of Plug-ins			
•System Restore			
•Real Time Protection*			

FAST

ECONOMICAL

COMPLETE

*ERTP included in select models

FOUR OPTIONS:

Plug-n-Protect Entry (6TB; Expandable)

Plug-n-Protect Standard (12TB)

Plug-n-Protect High-Capacity (12TB; Expandable)

Plug-n-Protect High-Capacity Expansion Pack (12TB)

Key Features:

All-in-One

• Pre-tested and pre-configured hardware and software for error-free deployment
• DeltaPro™ deduplication included
• Single point of contact for training and support
• Customizable to match customer's unique requirements using a menu of Agents and Plug-Ins

Fast, Simple Deployment

• Saves you up to two weeks of work on procurement, installation and configuration
• Eliminates need for professional service for hardware setup

Built-in Bare Metal Recovery

• Complete system restore System Restore (BMR) included
• Recover your data, in just minutes, after catastrophic failure with state of the art bare metal recovery technology

Economical Expansion

• Easily add drives to increase capacity
• High density saves room in the data center
• Scalable solution to meet your existing and future data protection needs

Built on GREEN technology

• AutoMAID (Massive Array of Idle Disks) allows the solution to place its disk drives into an idle state to conserve energy yet provide near-instantaneous access to data
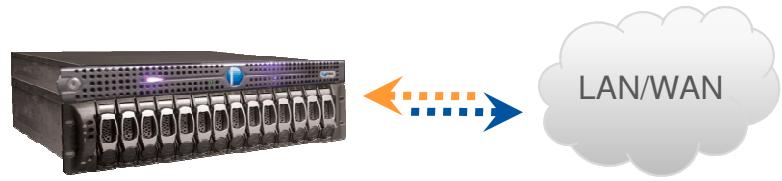

How it works:

1 **Factory Configuration at Nexsan**
- Pre-configure storage
- Pre-configure server
- Pre-configure Director
- Appliance is shipped to customer

2 **Installation**
- Customer installs appliance at site
- Connects to network and power
- Customer contacts Professional Services

LAN/WAN

3 **Customize**
- PS works with customer to Install WebCC or WinCC, Agents, and Plug-Ins
- Customer sets backup schedules and retentions

Central Control
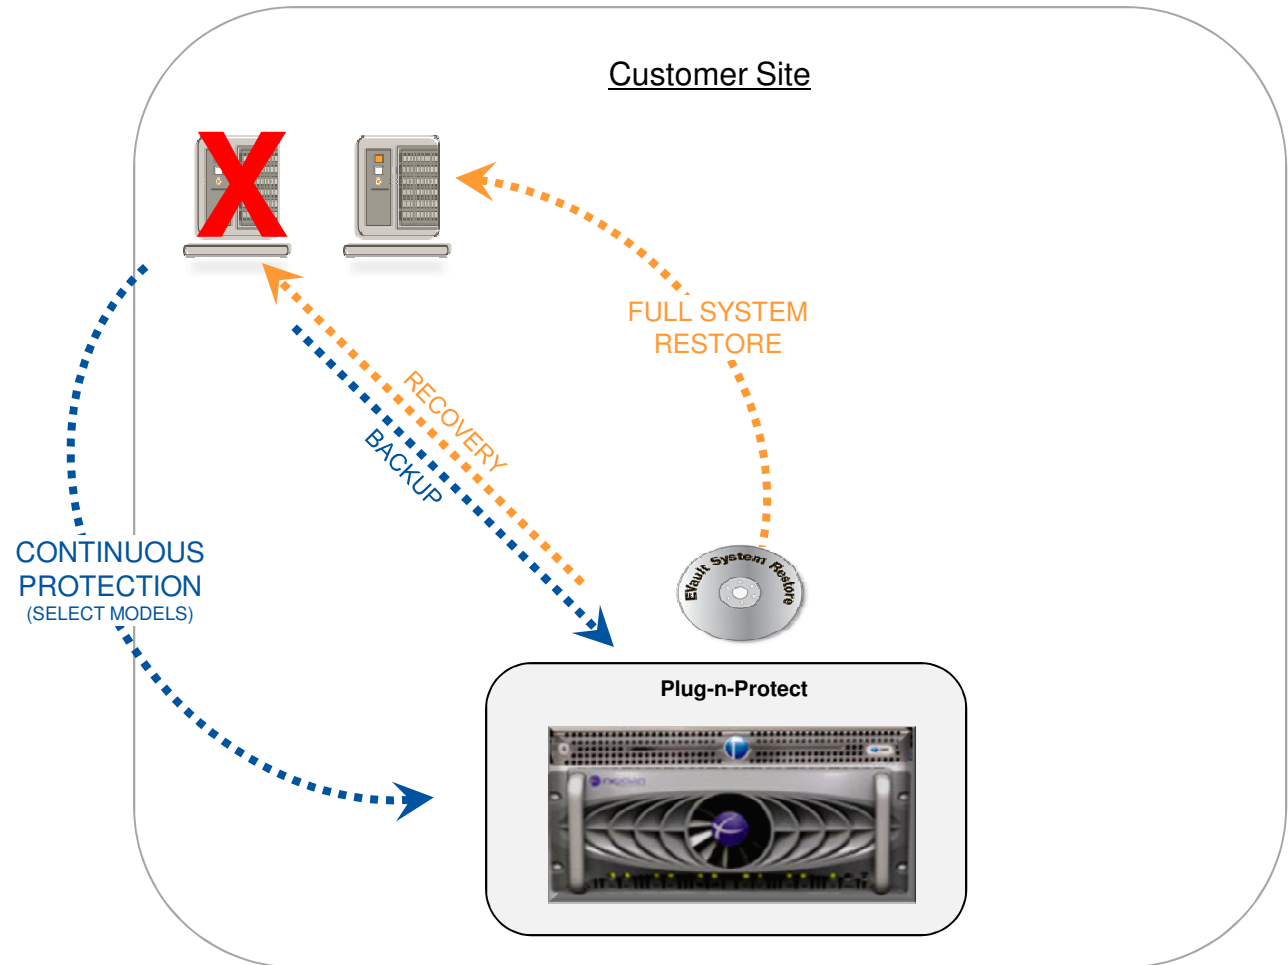

4 **Protect**
- Software backs up, de-duplicates, and encrypts data
- Customer manages backup and recovery through WebCC or WinCC

Plug-n-Protect

Key Advantages:

Supported Data & Applications

IBM System i (AS/400)	Windows	HP UNIX
IBM AIX	LINUX	SUN
Netware	VMware	DB2
ORACLE	Sybase	Informix
Btrieve	SQL	OTM
OFM	SAP R/3	Exchange
Microsoft Clustering	Sharepoint	Groupwise

Key Advantages:

Fast: Faster, Simpler Deployment

- Save up to two weeks of work on procurement, installation, and configuration

- Helps prevent errors during setup and configuration

- Same solution at each location lessens the learning curve and minimizes the possibility for human error

- Single contact for support issues

Economical: More Value at Lower Cost

- Models come with Software, including Director, a generous supply of Agents and Plug-Ins, System Restore, and in some cases even Real Time Protection

- All configurations come with client-side and backend deduplication

- Includes hardware and software support

Complete: One Solution for System and Data Protection

- Protect all your applications and platforms with one DP solution; customers can select the Agents and Plug-Ins to match their needs

- Get both data recovery and full system restore

- Add up-to-the minute protection for mission-critical systems

Configurations:

	Entry (6TB)	Standard (12TB)	High-Capacity (12TB)	High-Capacity Expansion Pack (12TB)
Server	Server (1U)	Server (1U)	Server (1U)	Server (1U)
Storage System	Nexsan SATABOY (14 drive system; 3U)	Nexsan SATABOY (14 drive system; 3U)	Nexsan SATABEAST (42 drive system; 4U)	-
Storage	6TB Usable (8x1TB Drives)	12TB Usable (14x1TB Drives)	12TB Usable (14x1TB Drives)	12TB Usable (14x1TB Drives)
HW Support	HW: 3-YR 24/7 phone, NBD On-Site	HW: 3-YR 24/7 phone, NBD On-Site	HW: 3-YR 24/7 phone, NBD On-Site	HW: 3-YR 24/7 phone, NBD On-Site
EVault Director	Unlimited (Over WAN)	Unlimited (Over WAN)	Unlimited (Over WAN)	Unlimited (Over WAN)
Agents	10 Agents (ANY)	20 Agents (ANY)	35 Agents (ANY)	10 Agents (ANY)
Plug-Ins	5 Plug-Ins (ANY)	10 Plug-Ins (ANY)	15 Plug-Ins (ANY)	5 Plug-Ins (ANY)
Companion Products	1 System Restore	5 System Restore	10 System Restore; 2 Real Time Protection	1 System Restore
Central Control	Included	Included	Included	Included
SW Support	SW: 1-YR Maint/Support *	SW: 1-YR Maint/Support *	SW: 3-YR Maint/Support	SW: 3-YR Maint/Support
	Also required: Professional Service Agent Installation (Plan, Install, Seed & Train)			

* Option to upgrade to 3-yr Maintenance/Support
** Savings will vary depending on choice of Agents, Plug-Ins, and Professional Services
