

North American Faculty

Maureen Brennan, CHIM, PMP, CAISS

Maureen has been involved in the health information management field for over twenty years working across all general health information areas, specializing in trauma. She has a diploma in HIM as well as a Master Certificate in Project Management, Carleton University. She has been actively promoting the importance of high quality/accurate data through various means including the Trauma Association of Canada (TAC) where she helped to develop the National Trauma Registry Data Dictionary, co-founder and past Chair of the Trauma Registry Information Specialists of Canada (TRISC), co-chair of the National Trauma Registry Advisory Council (NTRAC), and member of the Ontario Trauma Advisory Committee (OTAC) and Performance Measurement subcommittee.

Maureen has been AIS faculty since 1998 and is currently responsible for the development and management of metadata, training, quality assurance, technical coding specialist and the development of the T6® discovery process.
