XpertJet 661UF

XpertJet 461UF

MUTOH America's affordable XpertJet 461UF and 661UF UV-LED flatbed printers offer you limitless possibilities. Print on a variety of substrates and objects up to 5.9" in height. Standard items include: MUTOH Edition FlexiSign & Print RIP software, including text to braille features, all-in-one CD for easy one step installation, printer stand*, and vacuum table.*

Print directly to promotional items, gifts, awards, name badges, signage and more. Install the optional Rotary Attachment* on the XpertJet 661UF and in minutes you will be printing on cylindrical items. Our new XpertJet 461UF and 661UF UV-LED printers offer up to six color capability, including white and varnish and Smart Printing technologies such as Intelligent Interweave. Our new Local Dimming Control Technology allows for glossy, semi-glossy, and matte varnish printing with colors and/or white all in one pass.

XpertJet 461UF and 661UF printers are a smart choice for any shop.

* Stand and rotary attachment are not available on the XpertJet 461UF

* Vacuum table is optional on the XpertJet 461UF
