FLEXIBLE APPROACH TO CUSTOM & FACULTY-LED PROGRAMS

Our flexible custom program options take advantage of CAPA's more than 45 years of expertise in creating academic and internship programs in global cities.

ACADEMIC INTEGRITY AND QUALITY ASSURANCE

Based on academic rigor and integrity in strict adherence to the Forum on Education Abroad's Standards of Good Practice, our academic programs are intentionally designed to encourage students to engage in a critical analysis of the city in which they are living and studying.

IDENTITY, DIVERSITY & INCLUSION

Diversity is a CAPA core value. It is reflected in the diversity of our global city locations and a critical learning and development outcome that engages all our students. Our commitment to diversity extends to personal, experiential, and academic engagements throughout all of our communities.

GLOBALLY NETWORKED LEARNING

CAPA's innovative Globally Networked Learning options enable faculty and students to collaborate, teach, and learn from each other around the globe, enabling programs that include virtual speakers and connections across study abroad locations and your home campuses.

The team in the US and abroad are incredibly responsive and student-centered.
