

Helping 825,000 people in need.

Together, through our Eyes of Hope® programs, partnerships, and your participation, we're reaching communities near and far to give the gift of sight.

Since 1997, through VSP gift certificates, we've provided free eye exams and glasses to underserved people through these Eyes of Hope programs:

- **Sight for Students®:** 686,000 students
- **VSP Mobile Eyes®:** 133,370 people on board the VSP mobile clinics
- **Disaster Relief:** 68,000 people helped during times of disaster

In addition, through the **Eye Make a Difference program**, 178,000 glasses were donated by people in the U.S. to help those in need around the world.

Through the **VSP Eye on Diabetes Campaign**, more than 4,000 people in 14 states received free health services, and 1,400 doctors received free continuing education.

- Partnering with 18,000 VSP practices.
- Reimbursing these practices \$155 million.

For details, visit **Community Outreach** on **VSPOnline**.
