Placement Examples

Accounting Internship for an a Global Non-Profit

This organization is on a mission to empower impoverished communities through education and partnerships in Africa. They support economic development in these areas by identifying social business opportunities for local communities. Intern tasks may include: Input data into accounting system, work with CFO on monthly reports, develop CRM system reports, assist with child sponsorship activities, plan for future events and fundraisers.

Internship with and International Consulting Firm

This company is an international technologies and management consulting group with a rapid-pace of development and innovative solutions for demanding projects. Roles and responsibilities for interns include: Taking an active part in various aspects of marketing in the organization activities, interacting with internal departments to carry out client requirements, forming inter-departmental business strategies and communicating with necessary parties, and maintaining up-to-date customer and prospect records.

Graphic Design for a Musical Organization

This large musical organization is looking for a Graphic Design Intern to join their marketing team. An intern with this organization can expect to create digital advertisements, flyers, house programs, posters and other promotional materials (both print and web). Also, help the department with general marketing tasks in support of their busy calendar, as they produce 200 events annually. Working knowledge of InDesign, Photoshop and Creative Suite required. A portfolio of work that demonstrates these skills is required.

What is GE Virtuoso?

Are you a self-motivated and independent student looking to become a global citizen? Want to gain professional work experience without traveling far?

With GE Virtuoso, you can put accessibility and mobility concerns aside and develop a meaningful professional connection with an international company. Here you will gain the skills necessary to thrive in today's economy, including digital literacy, cross-cultural communication, time management, and much more.

Our Virtual Internship Program allows you to gain the same benefits from working with an international company and access to our career coaching and professional development program, plus it's affordable, environmentally friendly, and offers flexibility by working from the comfort of your home.
