"Become a GE Member"

"We have several companies opting to start with a membership and then later going for an on site consultation," said Lon Winters, Founder and Managing Director at GraphicElephants.com, "the product really fills a need for potential customers who hesitate to spend several thousand dollars for us to visit, but know they could benefit from our services. Membership has it's privileges. It provides a bit of a safety net for garment decorators - someone to reach out to in an emergency, special project or just some help in general."

Year long membership for use with any situation. Phone, email, FaceTime, Skype
