# GO ANYWHERE™

## Simplify, secure and automate managed file transfer processes

With the **GoAnywhere™** managed file transfer (MFT) solution, organizations can exchange data more efficiently and securely with trading partners, customers, employees and internal systems. GoAnywhere also helps organizations meet strict compliance regulations such as HIPAA, PCI DSS, SOX, GBLA and state privacy regulations.

## GoAnywhere is comprised of three components: GoAnywhere Director™, GoAnywhere Services™ and GoAnywhere Gateway™

**GoAnywhere Director™** streamlines and secures the exchange of data with customers, trading partners and enterprise servers. GoAnywhere Director is a flexible solution that connects to almost any server or data source using a wide variety of standard and secure protocols.

**GoAnywhere Services™** allows trading partners (both internal and external) to securely connect to your system and exchange files within a fully managed and audited solution. Popular file transfer and encryption standards are supported without the need for proprietary client software.

**GoAnywhere Gateway™** acts as an enhanced proxy that provides an additional layer of network security. It allows trading partners to connect to GoAnywhere Services without having to open incoming ports into the private network or store sensitive information in the DMZ. It also serves as a forward proxy for processing file transfer requests from GoAnywhere Director.

**Private Network**

GO ANYWHERE™ Director — *Managed File Transfer*

GO ANYWHERE™ Services — *Secure File Server*

*GoAnywhere Director initiates connections with Trading Partners*

*Trading Partners initiate connections to GoAnywhere Services*

*No inbound ports need to be opened into the Private Network*

GO ANYWHERE™ Gateway — *Proxy for the DMZ*

*File transfer requests are safely routed through GoAnywhere Gateway*

*Trading Partners*

---

## GO ANYWHERE™
### Managed File Transfer Solution

- Installs to Windows, Linux, IBM i, UNIX, AIX, HP-UX and Solaris
- Supports FTP/S, SFTP, SCP, HTTP/S and AS2 file transfer protocols
- Provides an intuitive browser-based interface for remote administration
- Generates detailed audit logs and alert messages

## To learn more visit GoAnywhereMFT.com, or call 1.800.949.4696

## GO ANYWHERE™ Director

- Connects to FTP/S, SFTP, HTTP/S, AS2, SMTP, POP3 and IMAP servers

- Secures transmissions with Open PGP, SSL, SSH or ZIP/AES encryption

- Compresses/packages files with ZIP, GZIP or TAR

- Connects to database servers including DB2, SQL Server, Oracle, Informix, MySQL and Sybase

- Interfaces with customer applications and programs

- Reads/writes Excel, XML, CSV, Delimited text and Fixed Width documents

## GO ANYWHERE™ Services

- Allows your trading partners to connect to your system through FTP/S, SFTP, HTTP/S and AS2

- Secures transmissions with SSL/TSL or SSH encryption

- Offers web client for browser-based file transfers

- Provides trading partner account wizards and permission controls

- Processes files automatically based on triggers

- Includes key and certificate management tools

- Integrates with GoAnywhere Gateway to keep sensitive files out of the DMZ

## GO ANYWHERE™ Gateway

- Allows sensitive data files, user credentials, permissions, certificates and keys to be stored in the private network rather than the DMZ

- Keeps services configurations maintained in the private network

- Protects private network by not requiring inbound ports

- Hides locations and identities of internal systems

- Supports FTP/S, SFTP, HTTP/S and AS2 protocols
