

Solutions for **SQL Server**

IDERA provides powerful and easy-to-use software tools to simplify your SQL Server management.

Our award-winning solutions address real-world challenges including tools for backup & recovery, performance monitoring, security, compliance & administration. From managing a single SQL Server to enterprise deployments with hundreds of servers, our software products deploy in minutes to help database administrators save time and focus on bringing more value to their business.

MONITORING & PERFORMANCE

SQL Diagnostic Manager™ PERFORMANCE MONITORING, ALERTING, AND DIAGNOSTICS

A powerful performance monitoring and diagnostics solution that proactively alerts administrators to health, performance or availability problems within their SQL Server environment—all from a central console, at your desk or from wide-variety of mobile devices including iPhone/iPad, Android, and Blackberry.

SQL Inventory Manager DISCOVER AND VISUALIZE YOUR SQL SERVER ENVIRONMENT

View your SQL Server inventory to know what you have, where & who owns it. Get alerts when a server goes down or space is running low. View server health checks and get best-practice recommendations to proactively fix potential problems.

SQL Doctor™ COMPLETE SQL PERFORMANCE TUNING

A revolutionary tool that analyzes SQL Server performance data and provides ranked recommendations to fix performance issues.

SQL Defrag Manager™ FIND AND FIX SQL FRAGMENTATION

A one-of-a-kind solution that automates the time-consuming process of finding and fixing database index fragmentation issues across multiple SQL Servers.

SQL Business Intelligence Manager™ MONITOR & MANAGE SQL SERVER BUSINESS INTELLIGENCE

SQL Business Intelligence Manager provides agentless monitoring of SQL Server Analysis Services, Reporting Services, and Integration Services servers and services.

SECURITY & COMPLIANCE

SQL Compliance Manager™ MONITOR, AUDIT & ALERT ON SQL SERVER USER ACTIVITY & DATA CHANGES

A comprehensive auditing solution that tells you who did what, when and how on your SQL Servers. SQL Compliance Manager helps you ensure compliance with regulatory and data security requirements by providing customizable, low-impact auditing, alerting and reporting on virtually all activity across multiple SQL servers.

SQL Secure™ IDENTIFY & MITIGATE SQL SERVER SECURITY RISKS

A security solution that helps identify holes in SQL Server security policies. SQL Secure collects and analyzes permissions data from SQL Server, Active Directory and the file system and registry to show who has access to what database objects and how that access is granted.

BACKUP & ADMINISTRATION**SQL Safe Backup™** AUTOMATED BACKUP ACROSS ALL SQL SERVERS

A high-performance backup and recovery solution for Microsoft SQL Server. SQL Safe saves money by reducing database backup time by up to 50% over native backups and reducing backup disk space requirements by up to 95%.

SQL Virtual Database™ ACCESS DATA FAST IN A VIRTUAL SQL SERVER

A powerful, one-of-a-kind solution that lets you attach SQL Server Backup files and query them just like they were real databases.

SQL Admin Toolset 24 TIME-SAVING TOOLS FOR SQL SERVER MANAGEMENT & ADMINISTRATION

Packed with 24 powerful tools that will make troubleshooting, administration and reporting a breeze.

SQL Comparison Toolset SQL SERVER OBJECT AND DATA COMPARISON

A set of products that perform object and data comparison, as well as synchronization.

SQL Enterprise Job Manager™ MONITOR & MANAGE SQL SERVER AGENT JOBS

Effectively monitor and manage SQL Server agent jobs from a centralized console with calendar views and in-depth analysis of job status and performance.

PRODUCT BUNDLES**SQL Management Suite** COMPLETE SQL SERVER MANAGEMENT

SQL Management Suite combines five key IDERA products for complete SQL Server management, from monitoring and diagnostics to backup, compliance and security management. It includes SQL Diagnostic Manager, SQL Compliance Manager, SQL Secure, SQL Safe Backup and SQL Defrag Manager.

SQL Performance Suite IMPROVE PERFORMANCE ACROSS ALL SQL SERVERS

SQL Performance Suite provides comprehensive SQL Server monitoring and analysis to improve performance across all SQL Servers. It includes SQL Diagnostic Manager, SQL Business Intelligence Manager and SQL Enterprise Job Manager.

SQL Maintenance Suite AUTOMATED SQL SERVER MAINTENANCE & OPERATIONS

SQL Maintenance Suite bundles three IDERA products for managing essential SQL Server maintenance and operations. It includes SQL Safe Backup, SQL Defrag Manager, and SQL Enterprise Job Manager.

SQL Security Suite EFFECTIVE SQL SECURITY AND COMPLIANCE MONITORING

Monitor and protect SQL data from malicious activity and identify security weaknesses to close gaps with SQL Security Suite. It includes SQL Compliance Manager and SQL Secure.

SQL Toolbox ADVANCED TOOLS FOR SQL SERVER DBAS & DEVELOPERS

An all-in-one solution to meet SQL Server administration, performance, tuning, and data needs.

SQL Toolbox includes: SQL Admin Toolset, SQL Comparison Toolset, SQL Doctor, SQL Virtual Database.
