GIVE US 30 MINUTES!

AND WE'LL CHANGE THE WAY YOU MANAGE SQL SERVER, SHAREPOINT AND POWERSHELL

Download a free evaluation of any of Idera's powerful tools at www.idera.com

At Idera, we've engineered a new generation of powerful tools for managing, administering, and securing Microsoft Windows Servers. Idera's products help companies ensure server performance and availability and reduce administrative overhead and expense. Idera provides solutions for SQL Server, SharePoint, and PowerShell. **What's more, you can download, install and start using any of Idera's tools in 30 minutes or less! Download a free 14-day evaluation today at www.idera.com!**

PERFORMANCE & AVAILABILITY

SQL diagnostic manager™ | MONITOR, DIAGNOSE & ANALYZE PERFORMANCE FROM YOUR DESK OR MOBILE DEVICE

New! Now with SQL mobile manager. A powerful performance monitoring and diagnostics solution that proactively alerts administrators to health, performance or availability problems within their SQL Server environment—all from a central console, at your desk or from a Blackberry™ or Windows mobile device.

SQL defrag manager™ | AUTOMATE & OPTIMIZE DATABASE DEFRAGMENTATION

A one-of-a-kind solution that automates the time-consuming process of finding and fixing database index fragmentation issues across multiple SQL Servers.

SECURITY & COMPLIANCE

SQL compliance manager™ | CAPTURE, AUDIT & ALERT ON SQL SERVER ACTIVITY

A comprehensive auditing solution that tells you who did what, when and how on your SQL Servers. SQL compliance manager helps you ensure compliance with regulatory and data security requirements by providing customizable, low-impact auditing, alerting and reporting on virtually all activity across multiple SQL servers.

SQL secure™ | IDENTIFY & MITIGATE SQL SERVER SECURITY RISKS

Helps to identify holes in SQL Server security and ensure compliance with increasing audit requirements. SQLsecure collects and analyzes permissions data from SQL Server and Active Directory as well as the file system and registry to show who has access to what database objects and how that access is granted.

BACKUP & RECOVERY

SQL safe™ | ACCELERATE, COMPRESS & ENCRYPT DATABASE BACKUPS

A high-performance backup and recovery solution for Microsoft SQL Server. SQLsafe saves money by reducing database backup time by up to 50% over native backups and reducing backup disk space requirements by up to 95%.

Idera SharePoint backup™ | BACKUP & RECOVER SHAREPOINT

New! A powerful backup and recovery product for Microsoft SharePoint sites and site collections. Idera SharePoint backup provides automated scheduled backups, monitoring of backup and recovery operations from a central console and reduces administrator workload by enabling site administrators and users to recover their own documents
