EyeKinetix® Pupillographer

EyeKinetix[®] Pupillographer
(Coming Soon)

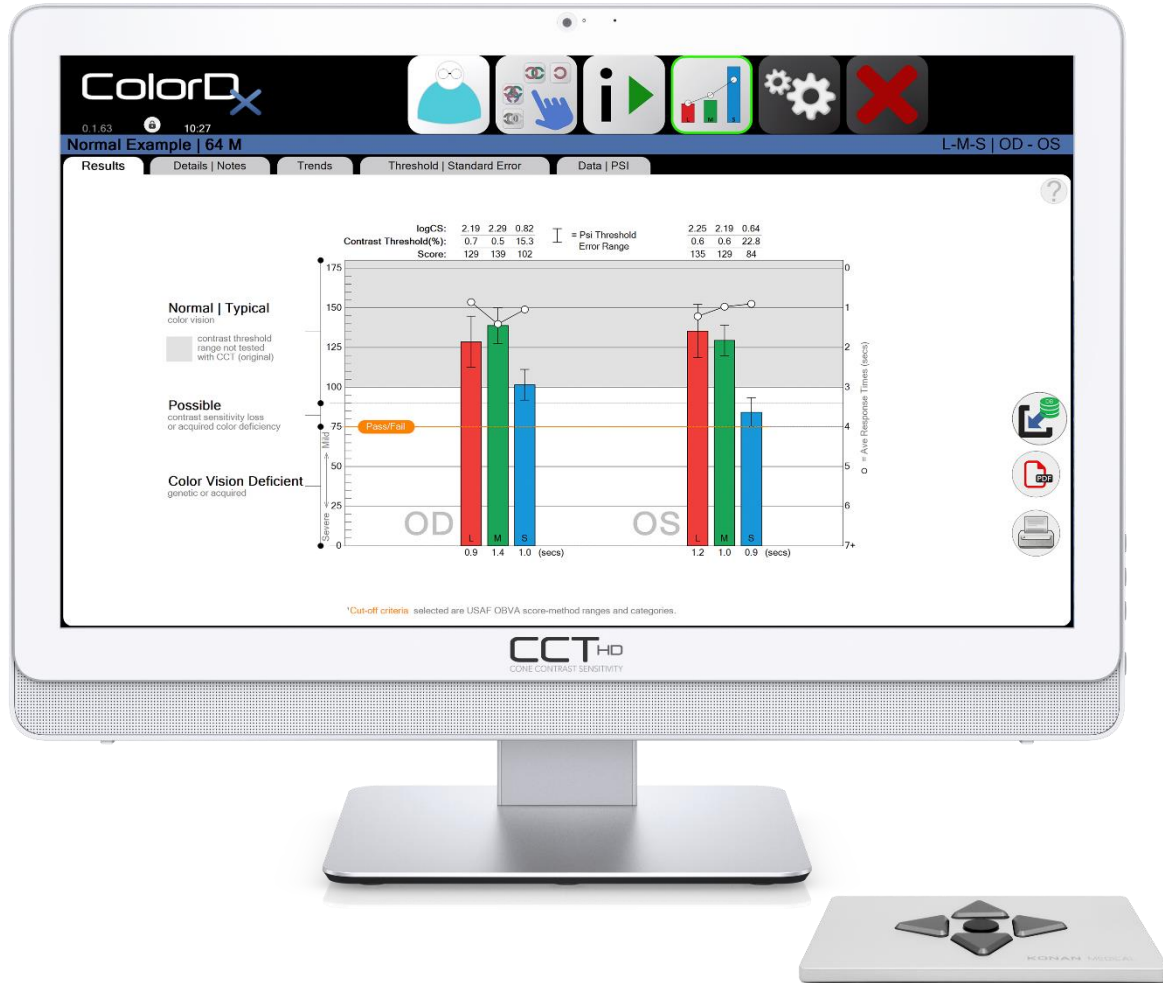

Quick Facts

- Objective, quick, portable pupillary light reflex testing (PLR/RAPD)
- Modern, accurate alternative to the century old swinging flashlight test
- Confidently examine your dilated patient knowing a possible RAPD has not been missed
- Ocular-Motor function tests in development
- New tests deployed via software updates

Developed by and licensed to Konan Medical in collaboration with the United States Air Force School of Aerospace Medicine OBVA under CRADA

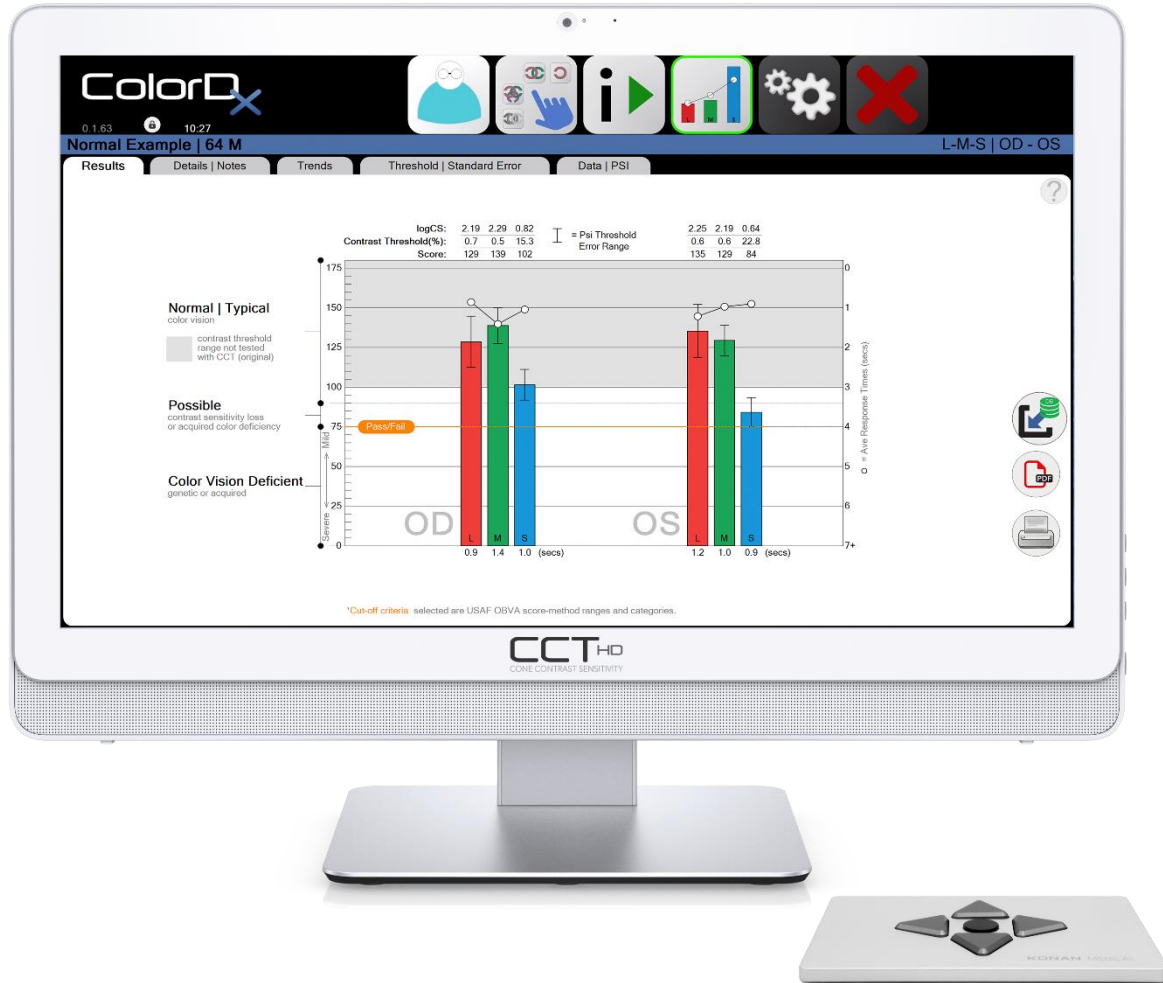

ColorDx[®] CCT-HD Color Vision Diagnostics

ColorDx[®] CCT-HD
Color Vision Diagnostics

Quick Facts

- Cone-isolation contrast sensitivity testing
- Tests for acquired color vision defects (primarily macula *function*)
- Loss of chromatic discrimination may be caused by hundreds of diseases, disorders, common substances and high-risk meds
- Complementary to fields, ERG, fundus imaging and OCT

Financials

- CPT Code 92283
- Medicare Natl. Avg. ~\$55
- List price \$6,900
- CE WIRE show special \$6,000
- 3.9% for up to 24 mths
- No payments for 90 days
- E.g. ~\$262 per month

ColorDx[®] CCT-HD
 Color Vision Diagnostics

300+ common drugs, substances, disorders that may cause an acquired color vision defect

AMD

acetohexamide
adrenal cortex injection

alcohol

amobarbital

aspirin

atropine
beclomethasone
betamethasonebroxyquinolone
butalbital
carbamazepine

carbon dioxide

cataracts

chloramphenicol
chloroquine
chlorpromazine,
chlorpropamide
cimetidine
cisplatin
cortisone
deferoxamine
denileukin diftitox
dexamethasone

diabetes

dicyclomine
diiodohydroxyquinoline
dimethyl sulfoxide
disulfiram
dronabinol

epinephrine

ergometrine
ergotamine tartrate
erythromycin
estradiol
estrogen and progestogen combination products
ethambutol

flet1ionamide
famotidine
fludrocortisone
fluorometholone
uphenazine

glaucoma

glibenclamide
glimepiride
glipizide
glycopyrrolate
griseofulvin
hashisl

herbal medicines

homatropine
hydrocortisone

hydroxychloroquine

ibuprofen
indometacin
influenza virus vaccine
iodide and iodine solutions and
compounds
isocarboxazid
isoniazid
isotretinoin
lidocaine
linezolid
lorazepam

LSD

marijuana

medrysone
mepacrine
mepenzolate
mercaptapurine
mescaline
methazolamide
methohexital

methylergometrine maleate
methylphenobarbital
metlylprednisolone
metoclopramide
metronidazole

multiple sclerosis

nolidixic acid
naproxen
nitrofurantoin
nizatidine

norepinephrine

organophosphates
oxazepam
pamidronate
penicillamine
pentobarbital
perphenazine
phenelzine
phenobarbital
phenytoin
physostigmine
pilocarpine
pioglitazone
piperazine
prednisolone

prednisone

primidone
prochlorperazine
promethazine
propantheline

psilocybin

pyridostigmine
quinidine
quinine
radioactive iodides
rantidine
rescinnamine

reserpine
quinine
radioactive iodides
rantidine
rescinnamine
reserpine
rifampicin
rimexolone
rosiglitazone
secbutalbarbital
secobarbital

sildenafil (Viagra)

sulfacetamide
sulfafurazole
sulfamethizole
sulfamet1oxazole
sulfanilamide
sulfasalazine
sulfathiazole
tadalafil
tamoxifen
thiabendazole
thietllyperazine
thioacetazone
tllioridazine
tioguanine
tobramycin
tolazamide
tolbutamide
tolterodine
tranexamic acid
tranylcypromine
triamcinolone
vardenafil
vigabatrin
vincristine
voriconazole
walianin
zidovudine

RETeval[®]
Hand-Held, Full-Field ERG

Quick Facts

- Affordable, portable ERG testing in the palm of your hand
- Complementary to other tests of *function* like visual fields and color vision
- Easily integrates into your current practice flow
- Quick and easy to use
- No dedicated test room or additional staff required
- May be useful for following progression of disease (e.g. [diabetes](#))
- Normative database for easy, color coded interpretation of most protocols

Financials

- CPT Code 92275
- Medicare Natl. Avg. ~\$150
- List price \$18,000
- CE WIRE show special \$17,000
- 3.9% for up to 36 mths
- No payments for 90 days
- E.g. ~\$505 per month

RETeval[®]

Hand-Held, Full-Field ERG

CellChek XL[®]

Gold-standard specular microscope

Quick Facts

- Outstanding value proposition for your contact lens business
- Elevates & differentiates your CL service
- Helps with compliance and upselling to daily disposables
- Important for co-managing cataract patients

CellChek XL[®]

Gold-standard specular microscope

Financials

- CPT Code 92286
- Medicare Natl. Avg. ~\$39
- List price \$28,000
- CE WIRE show “DEMO Unit” special \$17,000
- 3.9% for up to 36 mths
- No payments for 90 days
- E.g. ~\$500 per month

Quick Facts

- Comprehensive, NextGen Visual Electrophysiology
- Complementary to color vision testing, fields and OCT
- Exclusive “Isolated Check” VEP technique (icVEP)
