Company Policy

Prices

All stock merchandise is billed at the current manufacturer's suggested list prices and quantity discounts. Prices are controlled by manufacturing and are subject to change without notice. While we make every effort to ensure accuracy, an occasional error may occur. We reserve the right to make corrections.

Discounts

Volume discounts are provided for most products. For larger orders, please contact us for a quote.

Minimum Order

There is a \$25 minimum. Shipping and handling charges apply regardless of order amount.

Delivery

Most orders ship within 24 hours. Additional time may be needed for non-stock or special order items.

Shipping

Standard orders are shipped UPS Ground. Second Day and Next Day Air shipments are available upon request. Free ground shipping on orders of \$300 or more.

Shortages

Claims for shortages must be made immediately upon receipt of shipment. No claim will be honored if made more than 20 days after receipt.

Returns

No returns will be accepted without prior authorization. Please call our customer service department for a return authorization number. Stock items will be accepted for credit and are subject to a 20% restocking charge. Only unused items in salable condition returned in the original box will be accepted for credit.

Terms of Payment

Standard terms are CC at time of purchase, or net 30 days for accounts. Shipments may be delayed or suspended on past due accounts. Repeated suspensions may result in credit privileges being revoked.

Credit

Credit will be evaluated upon receipt of our completed and signed credit application. Credit terms will be based on information obtained. Credit applications are available upon request.

Cut-to-Size

All cut-to-size orders are considered final sales. No returns will be accepted.

TroLase Series

Trotec's laserable plastics are specifically designed for high-performance laser and rotary engraving. They have a micro-surfaced coating on a high-quality extruded core, which allows for detailed engravings at a high production speed. Materials are produced with a low-residue characteristic, which distinctly reduces your overall processing time and increases productivity. All products are carefully tested and optimized for your cost-saving, high-quality daily use. Our quality makes you more efficient and profitable. Within the Trotec laser and rotary materials portfolio, you will find a wide range of various colors, effects, gauges and durability, and characteristics suitable for nearly any application.

Tips

Ordering TroLase ADA Signage with self-adhesive film applied to the back will allow you to easily mount letters cut-out from the material plate onto base plates or walls. During assembly, use the cut material plate as a template for spacing and as a line level.

A few tips for best results:

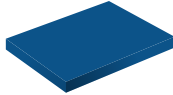

- A cutting grate should always be used when cutting plastics, in order to lift the material.
- Remove the protective film in order to prevent discoloration or excessive smoke.
- If excess smoke results, then too much energy is being used. In this case increase the speed.

Wood

Trotec wood products are selected for laser engraving, laser cutting, mechanical engraving and mechanical cutting. Both the natural wood as well as the MDF and Plywood alternatives allow for fine detail marking and cutting with a laser. Create your outstanding signage with the natural characteristics of real wood. Trotec wood offers a high variation of looks and results when laser engraving, depending on laser settings - deep engraving, dark black marking, light surface marking.

Please consider: Wood is a natural product, so please review our deviations and tips for storage located on our website.

The ideal material for each application

Launched in Feb. 2017, our broad line of materials now includes more than 800 products designed for laser and rotary processing – including laminates, acrylic sheets, wood panels, and laserable paper. Materials are available in a wide selection of colors and surface finishes, and are used for many applications such as indoor and outdoor signage, illuminated displays, ADA signage, print-and-cut applications, name plates, data tags, plaques and more.

Combined with our extensive line of CO₂ and fiber laser systems, our materials product line has enabled us to provide you with a complete range of support for your business – including laser equipment, materials and expertise – in a convenient and unique single-source solution. Our materials provide high-quality results in fewer passes and leave less residue. Other major benefits include:

- **Lowest cost on premium products**
- **In-house technical support for lasers and materials**
- **Fast delivery**
- **Easy online purchasing**
