recruitright

Take your recruiting activities out of your inbox and into one centralized, secure solution. The online RecruitRight applicant tracking system (ATS) takes scheduling stress away and allows you to find the perfect person to join your team, quickly and easily. Save time and money with RecruitRight's efficient workflow and tracking processes.

- Seamless data sharing, tracking and integration with all team members
- Candidate ratings with customizable filters
- Automated job postings and response notifications
- Automatic disqualification of non-compliant applicants based on pre-screening criteria

- Customizable roles and permission levels
- Email integration and automated interview bookings
- Status of application notices
- Online personal profiles
- Easy documentation uploads

policeproducts

Improve the ways your law enforcement interacts with the community. Our unique digital police products help officers and staff communicate with the public easily and intuitively. Reduce administrative time, save money and streamline police processes.

ePIC

Electronic Police Information Check (ePIC)

- Allow citizens to pay for and complete information checks online
- Improve turnaround time for police information check requests
- Integrate with third-party customer ID verification (such as Equifax)

fingerprint scheduler

Fingerprint Scheduler

- Allow citizens to view, book and securely pay for fingerprinting appointments
- Guide users with step-by-step booking instructions
- Display available appointment slots

paidduty

Paid Duty

- Allow users to request a Paid Duty officer online
- Provide officers with a central bidding portal for each request
- Award requests to officers using existing internal policies
- Search, view, print and update requests in a secure administrative area
- Integrate seamlessly with time management systems and your site's look and feel
