FREE Webinar!

November 21, 2013

11am Pacific,

1pm Central / 2pm Eastern

Don't let a tight budget or a lengthy internal review process stop you from moving ahead.

NGS-IQ is a proven upgrade path for Query/400 users and an easier to learn, cost effective alternative to IBM DB2 Web Query. See for yourself and then decide.

Enjoy point-click and drag-drop development; secure Web and mobile data access, and output to Excel, PDF, HTML, XML, TXT, CSV, DB2, print, email, and FTP.

Install the personal NGS SDK now and we'll teach you how to create Web reports and other forms of output your managers and analysts won't be able to resist.

NGS Software Developer Kit

- * 1 Year of Toll-Free Tech Support***
- * 1 Year of Software Maintenance***
