

COVID-19:

WHAT IT MEANS FOR TRAVEL

COVID-19 has now been detected in many locations throughout the world, so it's a natural tendency for panic to rise. However, to help turn panic into a productive call to action, On Call International's in-house Medical and Security experts are sharing some actionable information and advice regarding the virus and what it means for travelers and their organizations.

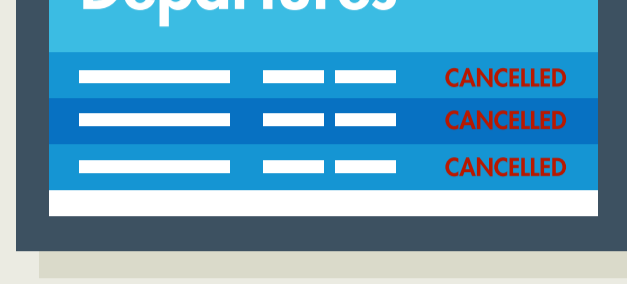

WHAT'S ON THE HORIZON?

Health experts may not know everything about COVID-19 yet, but they do know **how it's caused and how to stop its spread** with simple, common-sense precautions.

Travel restrictions, border closings, and heightened screening procedures are in effect and are expected to continue as case numbers increase globally.

International airlines are cutting flights and commercial flights should become **increasingly more difficult to access in the coming weeks.**

STANDING ADVICE AND VETTED RESOURCES FOR TRAVELERS

- ✓ Sign up for the **U.S. Smart Traveler Enrollment Program (STEP)**, or your country's home equivalent, which allows the nearest Embassy or Consulate to disseminate important safety information to individuals while they are traveling, and track those who may require evacuation.

- ✓ Consider many countries have been implementing/expanding entry and exit bans (applicable to citizens and non-citizens alike) with little forewarning. Information about entry and exit restrictions for all countries can be found on the **U.S. Department of State's Country Pages.**

- ✓ Review the **CDC's website** and the **WHO's website** for the most up-to-date information relating to COVID-19 exposure, risk, and prevention.

- ✓ As the situation is extremely fluid and could change rapidly, consult the **U.S. State Department's travel advisories** and the **CDC's Travel Health Notices** prior to finalizing any travel plans.

- ✓ Check the **IATA's website** for live updates on global travel such as quarantine information by destination, entry/exit requirements, and more.

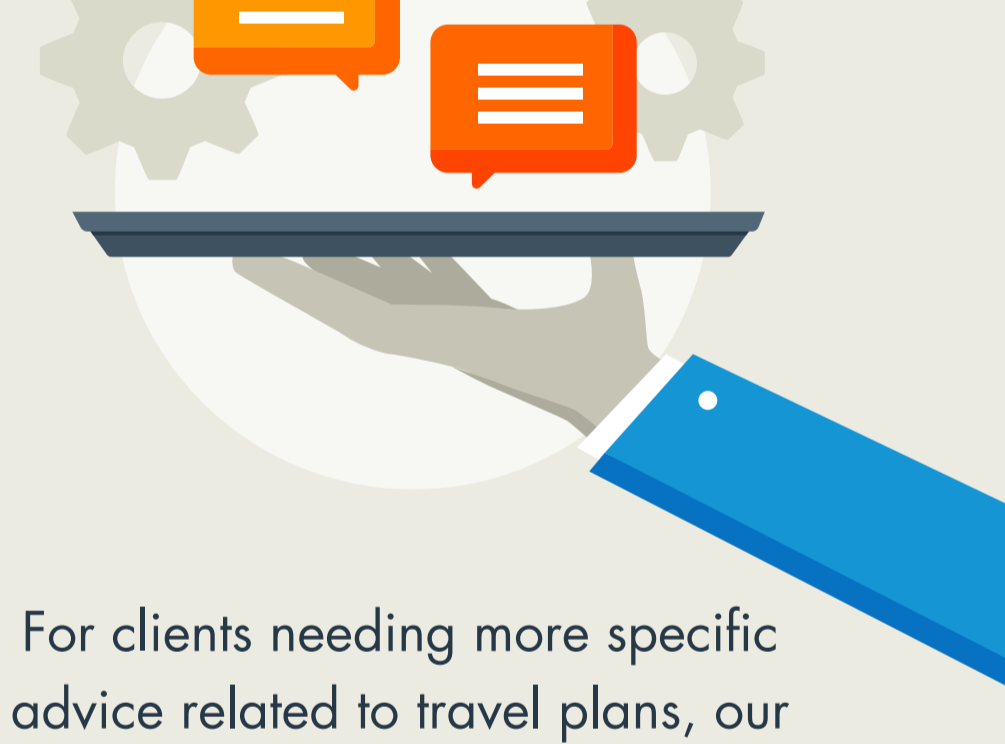

- ✓ Continue to stay vigilant and follow sickness prevention best practices such as not traveling while sick, practicing social distancing, frequent hand washing, using hand-sanitizer with 60% alcohol, and disinfecting objects and surfaces using a disinfectant wipe.

DID YOU KNOW? HERE'S HOW ON CALL CAN HELP YOU HELP YOUR TRAVELERS:

Up-to-Date Intelligence, Information, and Advice

Our in-house medical and security experts continue to closely monitor COVID-19 while curating and sharing only the **most vetted, credible information** with our clients.

For clients needing more specific advice related to travel plans, our Global Medical and Security teams are available for **customized COVID-19 consultations.**

Travel Assistance

If a traveler is quarantined and having difficulty with contacting their local diplomatic missions, On Call clients can **contact our Global Security Team to help liaise with these parties.**

On Call can assist clients with **navigating the quarantine claims process**, including continued situation monitoring, as well as connecting them to their insurance plan administrators to discuss benefits and file a claim.

Medical Assistance

Our travelers can contact us **around-the-clock** while traveling for help in locating a physician in their area that can administer a COVID-19 test (if available).

If an individual falls ill while traveling, On Call can assist clients 24/7 with **emergency medical monitoring, finding appropriate medical care, and coordinating emergency medical transportation.**
