

Need help retaining patients?
Want to reactivate former patients?
No time to create your own mailing lists and communications?

PatientMiner is here to help!

PatientMiner is offering targeted direct communications to your practice!

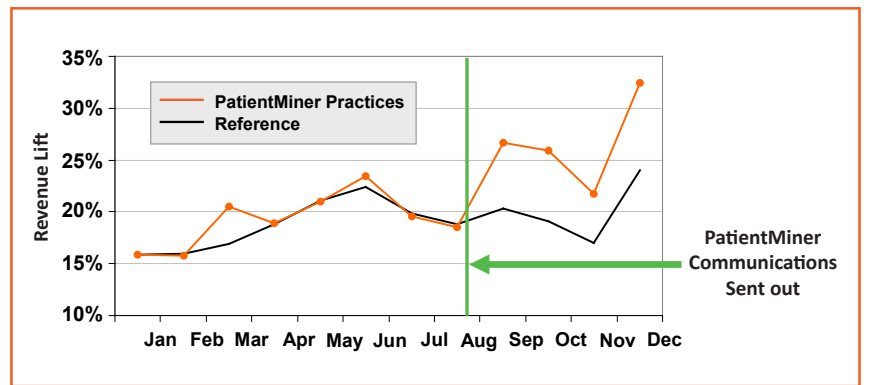

You can now reach out to your patients and encourage reactivation through personalized messages, while maintaining HIPAA/HITECH compliance.

Why choose PatientMiner?

Did you know?

It can cost up to **10 times more** to acquire a new customer than to retain an existing one.

PatientMiner uses your own data to reactivate patients and increase profitability!

PatientMiner reaches more patients than any other patient communications service!

A typical practice only has accurate email addresses for about **1/3** of their patients. To reach the most patients possible, PatientMiner connects to your patients through both email and postal mail.

Every message is developed with your patients' health in mind. You can choose messages from categories such as: **the importance of annual eye exams, diabetes awareness, glaucoma awareness, and contact lenses**. Each message has its own targeting criteria, but all of them focus on patients who are overdue for an eye exam.

There is **NO** subscription and **NO** contract.
Mailings are available on a monthly basis, so sign up for as many as you want.

Call us today at **1-800-815-3218** to sign up!
