Recert Dashboard

[Log in](#) to check your status of all required modules and pharmacology hours, basic policies, and a snapshot of past application activities. This tool also tracks the once-per-7-year use of the Record Review Year option.

ReCErt Tracker

[Log in](#) to pre-load completed activities and save time on the Recert application. PNCB's Pediatric Updates, Free CE, and Alternative CE modules automatically load for you when your CE certificate is processed.

• Note that you will be asked to enter your license information on the actual Recert application, even if you recently entered it in the ReCErt Tracker.

• Use the Applied Points column to see the number of hours applied toward a past Recert. If no number is listed, hours may be available to apply. Check Completed Date to confirm they will not expire before you submit your Recert application.

Email recert@pncb.org with questions about Recert.

Email ce@pncb.org with questions about Pediatric Updates and other PNCB continuing education.
