learn
anywhere

AFFORDABLE

the best
investment
is in yourself

MENTORS

personal coaching
for each student

a Melissa Verplank Enterprises Company

HANDS ON

practice and
share results

a perfect combination for the best learning experience

SYNERGISTIC LEARNING

Enroll Online

You will get access to the online curriculum materials for the Level you selected, including videos, quizzes, and tests. You will be assigned an instructor.

Start Work

Each Level is comprised of modules, and each module has a study guide to lead you through, step by step. You will use a blend of illustrated textbooks & online content.

Video Tutorials

Many of the modules include video lessons to better illustrate the techniques you're learning. Watch the pros at work in order to perfect your technique!

Online Tests

Each lesson gives you a chance to take (and repeat, if needed) a practice quiz before performing the online graded unit test.

Practice

Each Level has practical assignments to help reinforce the skills you're learning. You will upload photos of your work for grading, and maintain a grooming tracker for final grade.

Congratulations!

After completing each Level, you'll receive an acknowledgment of completion and be ready to work – or to start the next Level! We offer post-grad support and professional development.
