

Industry Leaders in Microsoft BI and SQL Server Platform

About Pragmatic Works

Pragmatic Works is a consulting, software and training company which focuses on helping customers leverage their data to make better business decisions. We are experts on data management, performance, business intelligence, big data, cloud technologies, and advanced analytics. Our repeatable and proven process achieves the most mature and impactful data experience for your organization.

Pragmatic Works has served more than 7,000 customers globally, across multiple industries including banking, insurance, financial services, healthcare, automotive and education, among others.

Empowering Business through Data

The key to a successful business is great people combining their knowledge with powerful assets to make a difference. The most successful people understand their business, their data and how to use one to create value with the other. We call these empowered businesses.

Empowered businesses intentionally build data-centric cultures. They realize the value of data as an asset and transform their company by building an organizational culture around their data.

Pragmatic Works' Data Strategy Program is designed specifically to guide you through all the steps in your strategy transformation process. Our specialized tools and techniques help make quick work of complicated discussions that arise in this process.
