

Quarterly Review

March 31, 2011

Thornburg Limited Term U.S. Government Fund

INVESTMENT STRATEGY

The Fund is a laddered portfolio of short/intermediate-term obligations issued by the U.S. Government, its agencies or instrumentalities with an average maturity of less than five years. Laddering involves building a portfolio of bonds with staggered maturities so that a portion of the portfolio matures each year; cash from maturing bonds is invested in bonds with longer maturities at the far end of the ladder. The strategy is a good compromise for managing different types of risk.

PORTFOLIO MANAGER

Jason Brady, CFA

IMPORTANT INFORMATION

Investments in the Fund carry risks, including possible loss of principal. Bond funds have the same interest rate, inflation, and credit risks that are associated with the underlying bonds. The principal value of bonds will fluctuate relative to changes in interest rates, decreasing when interest rates rise. Unlike bonds, bond funds have ongoing fees and expenses. Funds invested in mortgage backed securities (MBS) may bear additional risk. Investments in the Fund are not FDIC insured, nor are they deposits of or guaranteed by a bank or any other entity. There is no guarantee the fund will meet its investment objectives.

Before investing, carefully consider the Fund's investment goals, risks, charges, and expenses. For a prospectus containing this and other information, contact your financial advisor or visit thornburg.com. Read it carefully before investing.

Charts may not add up to 100% due to rounding.
