

### Gain Knowledge from Industry Experts

Pragmatic Works offers a wide variety of free training, boot camps, workshops and on-demand courses to fit into your busy schedule. Whether you're just starting out on your BI journey or looking to master your skills, we have the training and resources to meet all your needs.

#### Workshops

Learn from industry experts in our hands-on, in-person workshops. These one-day workshops are held across the globe and cover topics such as:

- Power BI Desktop and Dashboards
- Data Science
- IoT

#### Boot Camps

Gain extensive knowledge in our five-day, classroom style boot camps. These courses take a deep-dive into the following areas:

- Business Intelligence
- Power BI
- Data Science

#### On-Demand Training

Our On-Demand Training gives you the ability to learn from industry experts at your own pace.

The classes are designed to help you master the technology anywhere, anytime and on any device on a variety of topics including Business Intelligence, Business Analytics, Big Data, SQL Server Optimization and more.

#### Free Training

In addition to our paid training, we offer free training sessions every Tuesday at 11 a.m. EST.

These webinars are hosted by Microsoft MVPs and industry experts who cover all areas of SQL Server and Business Intelligence.
