

SMALL BUSINESS IT VIRTUALIZATION

"I feel that the new system is solid and your team's implementation was of high standard and will look to you for future upgrades"

Eastern Bearings, Inc.

WHAT CAN VIRTUALIZATION DO FOR YOUR SMALL BUSINESS?

Embarking on a virtualization strategy does not mean that you need to be an expert. As a Microsoft Frontline and HP Elite Partner, Turbotek offers full virtualization analysis and implementation. For production quality, Turbotek offers remote monitoring, maintenance, data archiving and DR.

There are many virtualization benefits for small business including reduced costs, faster disaster recovery time and improved agility. Here is a brief summary based on some of the major types of virtualization.
