BUILT FOR PROFESSIONALS

The "**XpertJet 1682SR** 64" Eco-Solvent Printer from Mutoh has a staggered dual-head design that provides ultra-fast print speeds. It's capable of producing smooth gradations while delivering high-quality printing even with reduced resolution thanks to the 7-color ink configuration (CMYK Lc Lm Lk). The newly designed platform is packed with features like automatic bi-directional alignments, a user-friendly touch panel, added LED lighting, and an upgraded media feed flange that allows operators to easily and quickly load media and exchange multiple rolls. These features are designed to increase user-friendly operation and maintenance while continuing to offer high production, high-quality output. The "XPJ" 1682SR is paired with Mutoh's GREENGUARD Gold Certified, "MS41" Eco-Solvent ink, which allows you to install graphics into high sensitivity environments like hospitals, child care facilities and more all while providing users a larger color gamut, outstanding durability, and improved dot gain.
