

SPEX UPC is frame information that loads directly into practice management software, drastically reducing the time spent on inventory management. Because the data is not hand-entered, costly data entry errors are virtually eliminated.

Use SPEX UPC and get the full benefit of your technology investment: loading the frame information enables you to set retail rates automatically, scan new frames directly into inventory and automate insurance forms.

YOUR SPEX UPC SUBSCRIPTION INCLUDES ACCESS TO FRAMES DATA ONLINE:

- Full color images help you sell frames not in stock
- Powerful search tools to find exactly the right frames
- Guides to lenses, contact lenses and more

ACCURATE PRICING PROTECTS YOUR MARGINS

Eliminate costly data entry errors. Be confident that your retail rates and managed care claims are based on the most current, accurate wholesale pricing.

MAKE FRAME INVENTORY FAST AND EASY

Save your practice hours of data entry work every month. SPEX UPC does the work for you!

REALIZE THE POTENTIAL OF YOUR TECHNOLOGY INVESTMENT

Take full advantage of your software's inventory tools. Enable barcode scanning, set retail pricing, run sales reports and more!
